

BIKE CARE

KEEPS YOUR BIKE IN TOP CONDITION

technical

INTRODUCTION

MoTip has been an established and respected brand for more than 40 years within the Automotive, DIY and Industrial markets. The MoTip Bike Care range has been developed from this solid foundation. Bike Care is a complete range with 20 solutions for the maintenance and repair of every type of bike. Our technical specialists have worked closely with bicycle manufacturers and cycling clubs and carefully tested every product to ensure they are of the highest quality.

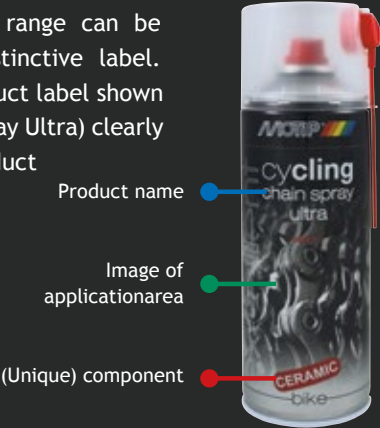

Using Bike Care products prevents equipment problems, helps to avoid high repair costs and keeps the bike in optimum condition.

THREE BENEFITS OF THE BIKE CARE RANGE

- Comprehensive and complete suite of products that caters for every type of bike, so that every end-user can be served.
- For enhanced visibility and active promotion in store, point of sale displays, a consumer leaflet and instruction video are available.
- Our R&D department has developed the products themselves and tested them carefully, so we have all the knowledge and experience to optimize the Bike Care range.

DISTINCTIVE PRODUCT LABELLING

Each product in the range can be recognized by its distinctive label. For example, the product label shown on the right (Chain Spray Ultra) clearly indicates that the product is a maintenance spray for chains and sprockets.

BIKE CARE RANGE

CLEANING

During an intensive bike ride, large amounts of grease and dirt build up on your bike and this can cause parts to wear faster or seize up. So it is very important to clean your bike thoroughly after intensive use, to keep your bike in perfect condition and prevent future problems.

PROTECTION

To keep your bike in top condition for as long as possible it is important to protect it against grease and dirt, so that your bike suffers the least damage during use.

LUBRICATION

Regular lubrication of your bike components is an essential part of keeping your bike in perfect condition. When you clean your bike, some of the lubricants are also lost in the process. So it is important to reapply these lubricants in order to keep your bike in optimum condition and perfect working order.

ASSEMBLY

To make the assembly of bike parts as easy as possible, the use of a lubricant/maintenance product is indispensable, because it ensures smooth assembly and prevents wear and clamping.

TOOL

To ensure the optimum condition of the bike during use, there have been developed some special products to combat/prevent unpleasant situations such as a flat tyre or a longer braking distance due to bad disc brakes.

CLEANING

CHAIN CLEANER GEL

Chain Cleaner Gel is a fast dissolving cleaner for chains and sprockets. Chain Cleaner Gel has an optimal cleaning effect due to its unique formulation (a combination of the gel structure, the emulsifying properties and low evaporation rate). and It removes grease and dirt with ease. Chain Cleaner Gel has a powerful jetspray and a 360° valve.

Description	Content	Article number	EAN-code
Chain Cleaner gel	400 ml	000275	8711347204786

BRAKE CLEANER

Brake Cleaner is a cleaner specifically developed for removing grease and dirt from disc brakes. Brake Cleaner has a powerful jetspray, leaves no residue, is non-conductive and non-corrosive.

Description	Content	Article number	EAN-code
Brake Cleaner	200 ml	000291	8711347232475

E-BIKE CONTACT CLEANER

E-Bike Contact Cleaner is a fast dissolving cleaner for electrical switches. E-Bike Contact Cleaner is non-conductive, non-corrosive and leaves no residue. Before use, it is important to switch off the electrical contacts and only switch the contact on again when the cleaner has completely evaporated.

Description	Content	Article number	EAN-code
Connection Spray	200 ml	000286	8711347232253

BIO CLEANER

Bio Cleaner is biodegradable cleaner that can be applied to all parts of the bike. The user-friendly trigger has a powerful jetspray, fast dissolving properties and can be used on all bike surfaces including carbon fibre, titanium, chrome, steel, aluminium, rubber and plastic.

Description	Content	Article number	EAN-code
Bio Cleaner	500 ml	000281	8711347209156

PROTECTION

SHIELD

000277

Shield is a spray to treat fasteners and to prevent corrosion. Shield has an excellent corrosion prevention and good adhesion. Shield applies a thin protective layer to the bike, providing effective resistance to chemicals and weather conditions.

Description	Content	Article number	EAN-code
Shield	400 ml	000277	8711347209118

SHINE & PROTECT

000270

Shine & Protect is a maintenance product that cleans, protects and gives a lasting gloss finish. Shine & Protect is suitable for treating all lacquered and carbon bike parts. Shine & Protect reduces the adhesion of dirt and protects against all weather conditions.

Description	Content	Article number	EAN-code
Shine & Protect	400 ml	000270	8711347204724

E-BIKE ELECTRO PROTECT

000287

E-Bike Electro Protect is a protective spray that shields electrical systems from moisture. E-Bike Electro Protect is both moisture and water repellent. E-Bike Electro Protect has a very good adhesion and anti-corrosion effect.

Description	Content	Article number	EAN-code
Protect Spray	200 ml	000287	8711347232277

SILICONE SPRAY

000283 + 000294

Silicone Spray is a spray to lubricate and protect plastic or lacquered parts. Silicone Spray prevents squeaking and creaking of plastic parts. Silicone Spray is water repellent, weather resistant and has good mechanical and thermal stability.

Description	Content	Article number	EAN-code
Silicone Spray	400 ml	000283	8711347209170
Silicone Spray	200 ml	000294	8711347232376

LUBRICATION

CHAIN SPRAY SPORT

000271 + 000292

Chain Spray Sport is a (dry) lubricant with ceramic particles to treat chains and sprockets of bikes. Chain Spray Sport is most suitable in dry conditions and has the advantage that it repels dirt. Chain Spray Sport is water repellent, prevents wear and is resistant to all weather conditions. In wet weather conditions, we recommend Chain Spray Ultra.

Description	Content	Article number	EAN-code
Chain Spray Sport	400 ml	000271	8711347204748
Chain Spray Sport	200 ml	000292	8711347232338

CHAIN SPRAY ULTRA

000272

Chain Spray Ultra is a (wet) lubricant with ceramic particles to treat chains and sprockets of bikes. Chain Spray Ultra has a high-viscosity and therefore bonds better when used in wet conditions. Chain Spray Ultra is water repellent, prevents wear and is resistant to all weather conditions. In dry weather conditions, we recommend Chain Spray Sport.

Description	Content	Article number	EAN-code
Chain Spray Ultra	400 ml	000272	8711347204762

CHAIN OIL ULTRA

000279

Chain Oil Ultra is a wet lubricant to treat chains and sprockets of bikes. Chain Oil Ultra has a high-viscosity and therefore bonds better when used in wet conditions. Chain Oil Ultra is water repellent, prevents wear and is resistant to all weather conditions. In dry weather conditions, we recommend Chain Oil Sport.

Description	Content	Article number	EAN-code
Chain Oil Ultra	100 ml	000279	8711347209071

*de Chain Oil Ultra is gelijk aan de Chain Spray Ultra

CHAIN OIL SPORT

000280

Chain Oil Sport is a dry lubricant to treat chains and sprockets of bikes. Chain Oil Sport is most suitable in dry conditions and has the advantage that it repels dirt. Chain Oil Sport is water repellent, prevents wear and is resistant to all weather conditions. In wet weather conditions we recommend Chain Oil Ultra.

Description	Content	Article number	EAN-code
Chain Oil Sport	100 ml	000280	8711347209095

*de Chain Oil Sport is te vergelijken met de Chain Spray Sport

PTFE SPRAY

000284 + 000295

PTFE Spray is a high quality and universal lubricant to treat mechanical metal parts. PTFE spray has excellent mechanical and thermal stability and prevents wear.

Description	Content	Article number	EAN-code
PTFE Spray	400 ml	000284	8711347209194
PTFE Spray	200 ml	000295	8711347232390

LUBRICATION

BEARING GREASE

000276

Bearing Grease is a lithium-based grease for all bearings, in a special dispenser for a user-friendly and economical dosage. Bearing Grease has a high-viscosity and prevents wear and clamping. Bearing Grease has an excellent anti-corrosion effect and is water repellent.

Description	Content	Article number	EAN-code
Bearing Grease	200 ml	000276	8711347212682

SUPER LUBRICANT

000273 + 000293

Super Lubricant is a low-viscosity lubricant to treat all non-bearing, moving parts of the bike, with the exception of chains. Super Lubricant is extremely suitable for all carbon, aluminum, steel and plastic parts, both treated and untreated. Super Lubricant has an excellent lubricating effect, prevents wear and repels dirt.

Description	Content	Article number	EAN-code
Super Lubricant	400 ml	000273	8711347204809
Super Lubricant	200 ml	000293	8711347232352

ASSEMBLY

PENETRATING OIL

000288 + 000289

Penetrating Oil is an effective tool for loosening rusted parts. Penetrating Oil has good penetrating properties and contains graphite and MoS2. Penetrating Oil is moisture repellent and rust preventive.

Description	Content	Article number	EAN-code
Penetrating Oil	400 ml	000288	8711347232291
Penetrating Oil	200 ml	000289	8711347232314

CARBON GRIP

000274

Vaseline Spray is a universal lubricant and preservative spray with excellent adhesion. Vaseline Spray prevents clamping and protects screw connections and rims against corrosion and wear.

Description	Content	Article number	EAN-code
Carbon Grip	400 ml	000274	8711347204823

VASELINE SPRAY

000285

Carbon Grip is an effective tool for the assembly of carbon parts. Thanks to the unique combination of lithium grease and quartz particles, Carbon Grip has a good fixing effect, which makes it easier to assemble carbon parts.

Description	Content	Article number	EAN-code
Vaseline Spray	400 ml	000285	8711347209217

TOOL

TYRE REPAIR

000297

Tyre Repair is a rubber-based spray, for emergency tyre repairs. Tyre Repair is ideal for small leaks or punctures and can be used without removing the tyre.

Description	Content	Article number	EAN-code
Tyre Repair	75 ml	000297	8711347088102

DISC BRAKE CONDITIONER

000278

Disc Brake Conditioner is a spray with high thermal stability to condition disc brakes. Disc Brake Conditioner prevents clamping and wear of the disc brake and is resistant to chemicals and weather. Disc Brake Conditioner ensures optimal braking capacity.

Description	Content	Article number	EAN-code
Disc Brake Conditioner	400 ml	000278	8711347209132
