MONTANA TRUE COLOR SWATCH GOLD

This is the Montana GOLD true tone color swatch. Although every effort has been made to check, mix and print colors as close to the original as possible, printing and paper limitations may create slight variations from the actual color. See more on page 51.

MONTANA KEY HOLDER

This new variation of the Montana lanyard and key holding devices, the Montana Keyholder features the TYPO Logo proudly embroidered on the strong flat synthetic cord which is finished with a matt metal loop on one side to affix your keys to, and a black matt metal carabiner on the other for easy fastening to bags, clothes, or preferred materials. See more on page 167.

MONTANA HELLO-GRAM STICKER NON EGGSHELL

The new Montana HELLO-GRAM stickers take sticker bombing to a new level. The 12cm x 9cm sticker base features the traditional Montana Cans „Hello My Name Is“ design and places it on a new holographic (non-eggshell) adhesive film. See more on page 169.

NEW MONTANA MARBLE EFFECT COLORS

We are proud to announce the release of Marble Copper, Marble Yellow, and Marble Grey. See more on page 26.

NEW

EMPTY MARKER 8MM CHISEL

This 8mm Chisel is the shorter hybrid of the larger EMPTY marker assortment. Holds 14ml of liquid and is slightly shorter for easy use and fast stowing. Suitable for all Montana inks and paints. more on page 130.

NEW COLORS NOW AVAILABLE

Beautiful metal cup is coated with a cook-top, dishwasher and campfire friendly enamel coating. Stylishly branded with the MONTANA-CANS Typo Logo design, Hand made in Europe. Page 166.

NEW

NEW MONTANA FOLDABLE RPET BAG

The Montana Foldable RPET Bag is useful addition to the Montana bag range. Able to carry between 10 to 12 spray cans or up to 5kg of weight, this strong flexible bag can be folded away for easy and discrete storage when not in use. See more on page 159.

MONTANA DONUT PRINT BAG

Montana Cotton Bag range DONUT PRINT series. Coming soon in the colors BLK400-7320 Ghetto and BLK400-9150 Whiteout, this Cotton Bag series pays a small homage to a big milestone. 100% cotton bag is cut in the familiar 38 x 42cm sizing. See more on page 159.

NEW MONTANA PINS

Whether you're going painting or taking off your bag when you arrive at work, the Montana Cans Pin series has a pin for everyone. And hasn't the pin game come a long way since the release of the first Montana Cans pins. See more on page 167.

NEW MONTANA T-SHIRTS

The Montana-Cans logo is tried and true. It is a household name for artists on all corners of the globe. Introducing the new Montana Cans T-shirt designed by SICOER. See more on pages 151 - 153.

MONTANATM
CANS 

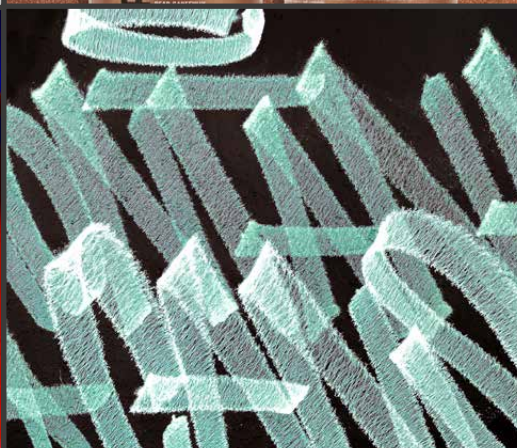

MONTANA-CANS offer spray cans and other artist tools not only for the creative minds but also for professionals, especially since all ingredients are of highest quality. The famous Montana GOLD is known and appreciated for it's wide color range excellent for fine art or mural painting. Combined with the new Montana TECH series or the ACRYLIC markers Montana GOLD proves to be multifaceted as well as versatile.

The Montana BLACK can is the winter proof all-rounder spray can beloved by artists for graffiti, thanks to it's durability. For an ultimate urban street calligraphy experience the Montana ULTRA WIDE provides wide line work from 15 to 60 cm. Further the Montana WHITE series offers a budget-friendly high gloss finish to your street art project.

THE MONTANA-CANS **EFFECT** SPRAYS

DECEIVINGLY REAL CREATIVE FAUX FINISHES

The new Montana EFFECT sprays add a whole new dimension to being creative. Nine new Glass effect colors have been introduced to enable an even wider array of effects on glass. The EFFECT series features the new Montana GLASS effect, METALLIC effect, Montana GLITTER effect with new colors, MARBLE effect, CRACKLE effect and GRANIT effect sprays. From the futuristic optically illusive HOLOGRAM GLITTER spray, with it's enchanting galactic sparkle, to the historically distressed look of the CRACKLE spray, the Montana EFFECT series is ideal for indoor or outdoor creative work and is to use in conjunction with the Montana GOLD and Montana ACRYLIC marker product ranges. Latest to the EFFECT range is the new Montana VINTAGE Spray Filter to create used and vintage looks. Every surface can be transformed into a whole new visual landscape. With further EFFECT products being developed, this series is destined to please.

GLASS PAINT EFFECT 250ML

HIGH-COVERING ABRASION PROOF GLASS PAINT EFFECT

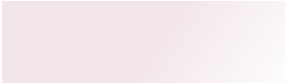

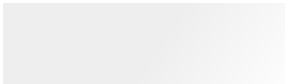

The Montana GLASS Paint is a semi transparent effect paint that can re-color, brighten up or create innovative effects on glass. Its Nitro-Acrylic combination base dries fast enabling users to create shadows, sea-glass or frost like effects. Ensure surfaces are clean, dry and free of oil or dust free before application. Montana GLASS Paint can re-color, brighten up or create innovative effects on glass. It is Nitro-Acrylic combination paint, which dries with a semi transparent finish. Create shadows, sea-glass or frost like effects. Ensure surfaces are clean, dry and free of oil or dust free before application.

Before use, remove the nozzle and turn the can upside down to let the safety ring to fall out. Shake the can well for 2-3 minutes! Re-apply the nozzle and test spray on a non-visible area for compatability to the substrate. Montana GLASS Paint may not be compatible with plastic or synthetic glassware. Apply at a distance of 15-20cm from the substrate in one or more even layers. Adding layers will increase color opacity for greater

warmth and ambiance. Perfect for frosting window glass and creating milk glass, or sea-glass like finishes to areas applied.

At 20°C, Montana GLASS Paint is dust dry after 3-4 minutes, dry to handle after approximately 45-60minutes and fully cured after 6-8 hours. Drying time varies subject to temperature, humidity and thickness of coating. Allow 4-5 minutes drying time between coats. Over painted with Acrylic lacquers is possible once dry and cured. Montana VARNISHES can also be applied to seal and further protect once cured. Montana GLASS Paint is not food-safe.

MONTANA GLASS PAINT DISPLAY SIGNAGE

The introduction of the Montana GLASS PAINT 250ml was a turning point for coatings on glass. This much-loved matte finish product expanded the horizons of any person or artisan working with glass. For retailers, the Montana Counter Rack is the ideal display system to compliment the line. To expand this synergy even further, we introduce the Montana GLASS PAINT DISPLAY signage. Consisting of three printed cardboard signs that facilitate the top, left and right sides of the Counter Rack, each 1mm thick display piece is fitted with

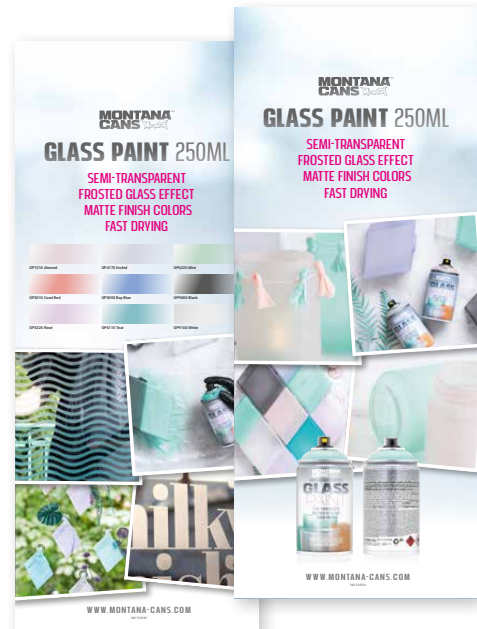

double-sided adhesive tape making mounting quick and easy. With inspiring how-to imagery and clearly listed sell facts, this signage is sure to benefit the Montana GLASS PAINT 250ml promotions and sell rate in your store(s).

The new RUST Effect Spray works on multiple surfaces such as wood, glass, metal, ceramic, stone, card board and more

best rust effect can be achieved when combining the two new RUST Effect colors RUST Orange Brown and RUST Brown

RUST EFFECT 400ML

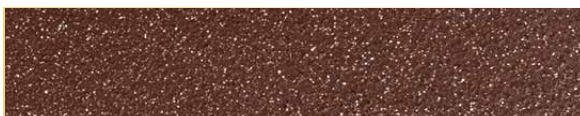

CREATE REALISTIC RUST EFFECTS

The new Montana RUST Effect spray now available - for the illusion of rust and oxidization. Ideal for hobby, DIY, or creative projects. Apply as a single color, or both together as desired for an organic look. Can be used on different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic, and other paintable materials. The rust effect is created by a nitro-combi formulation that mimics the appearance of oxidized. Apply RUST Effect Brown, and Brown Orange on top of each other for a more organic appearance. Rust Effect can be top coated and combined with Montana GOLD, Montana ACRYLIC markers, and customary acrylic paints once completely dry. Pre-priming is required for application on polystyrene (Use Montana Styrofoam primer and make sure to seal the surface completely). Color as shown by the donut on the can. USE: Best working temperature between +10°C and +25°C. During application, protect the object and the surrounding area from spray mist. Surfaces should be dry, clean of dust, and oils before application. Shake can well for 2-3 minutes. Remove lid before use. For best results apply at 25cm from the object. Apply in thin even layers, in a sweeping motion with at least 2 min drying time between each pass. Allow 24h curing time before applying other coatings. Always test spray on a non-visible area to check the compatibility of lacquer or paint.

VINTAGE-EFFECT 400ML

VARNISH FOR A YELLOWISH VINTAGE LOOK

Ever found yourself lost in the romance of second hand shops or yard sales, looking at all the retro and vintage objects and wondering what stories lay behind the aging facade? Now you too can create that flair yourself on almost any object or surface and upcycle it into something inspiring or functional. Whether your an experienced DIY-ist or new to art and craft, Montana VINTAGE Spray Filter is the tool for your retro project. The Montana VINTAGE Spray is a solvent-based, high quality acrylic, low pressure effect spray. The yellow transparent coating is a UV-resistant, quick drying semi-gloss finish that brings best results on white or light colors. Montana VINTAGE Spray Filter is perfect for all creative workers that are trying to create a vintage or aged looking effect. Are you a bit of a photographer? Applying Montana VINTAGE Spray to your favorite black and white photos can create an authentic looking vintage touch. Take the idea further by framing the photos and treating the frames as well. Signage and furniture can also become a center piece for any home of business. With multiple layers of Montana VINTAGE Spray Filter and some sanding in between coats, new objects can appear as if they have a longer story to tell. For best results use the flat jet nozzle on the can and apply in 2-3 thin, even coats. The Montana VINTAGE Effect Spray can be combined with Montana VARNISH for additional protection once completely cured. Ideal for use on surfaces that are painted or printed, on furniture, photos and many other substrates. To increase the effect light sanding can be undertaken between coats.

EV1050 Vintage Yellow

TNR 477041

Coated with UV-EFFECT - visible under UV light

Coated with UV-EFFECT - not visible at daylight

UV-EFFECT 400ML

TRANSPARENT UV-SPRAY WITH FLUORESCENT EFFECT ONLY VISIBLE UNDER INCIDENT UV LIGHT!

Montana UV-EFFECT is a transparent effect paint that is only visible under direct UV light. Able to be sprayed on nearly any substrate, the colorless and semi-gloss paint is not visible in sunlight rather illuminates when exposed to UV light with a glowing, blue-purple color. Ideal for indoor use, the luminous spray can be a great tool not just for making art or art happenings, but also in practical contexts such as Guerilla Marketing, night clubs, venue and property marking. The Montana UV-EFFECT spray can be applied to numerous substrates such as coated and uncoated screens, masonry, wood, glass and more. The UV light effect becomes more prevalent, the more coats are applied particularly when applied with a stencil.

The UV-EFFECT spray is compatible with other color and effect coatings within the MONTANA-CANS range as long as total curing time has occurred. (24-48 hours). The Montana UV-EFFECT spray available in the usual 400ml can format for easy and comfortable use. Applying in thin, multiple layers will enhance and increase the UV-EFFECT sprays ability to produce a vibrant glow effect. To add durability and protection, the fully dry and cured surface can be sealed with Montana VARNISH Spray in Matt, Semi-Gloss or Gloss. Always test spray on a non-visible area to check compatibility of lacquer or paint.

UV1000 UV Effect Transparent

TNR 449826

METALLIC EFFECT 400ML

HIGH-COVERING ABRASION PROOF METALLIC EFFECT

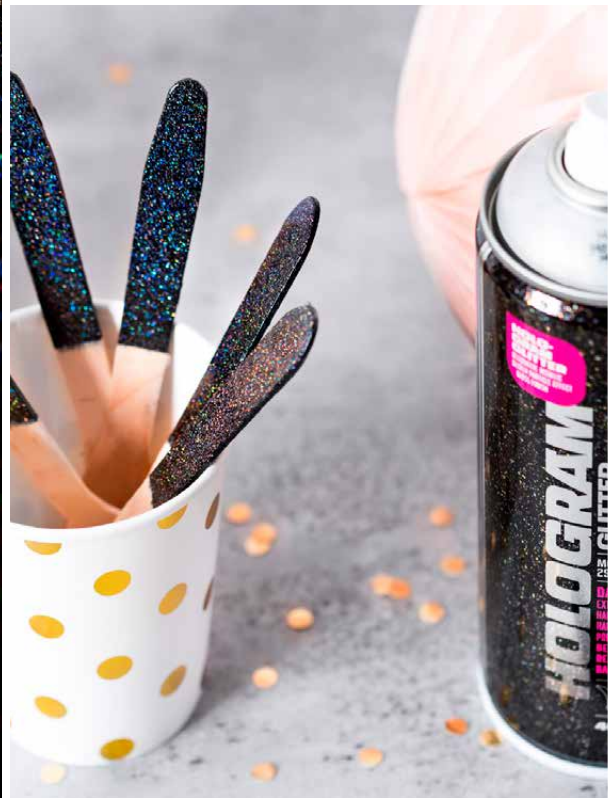

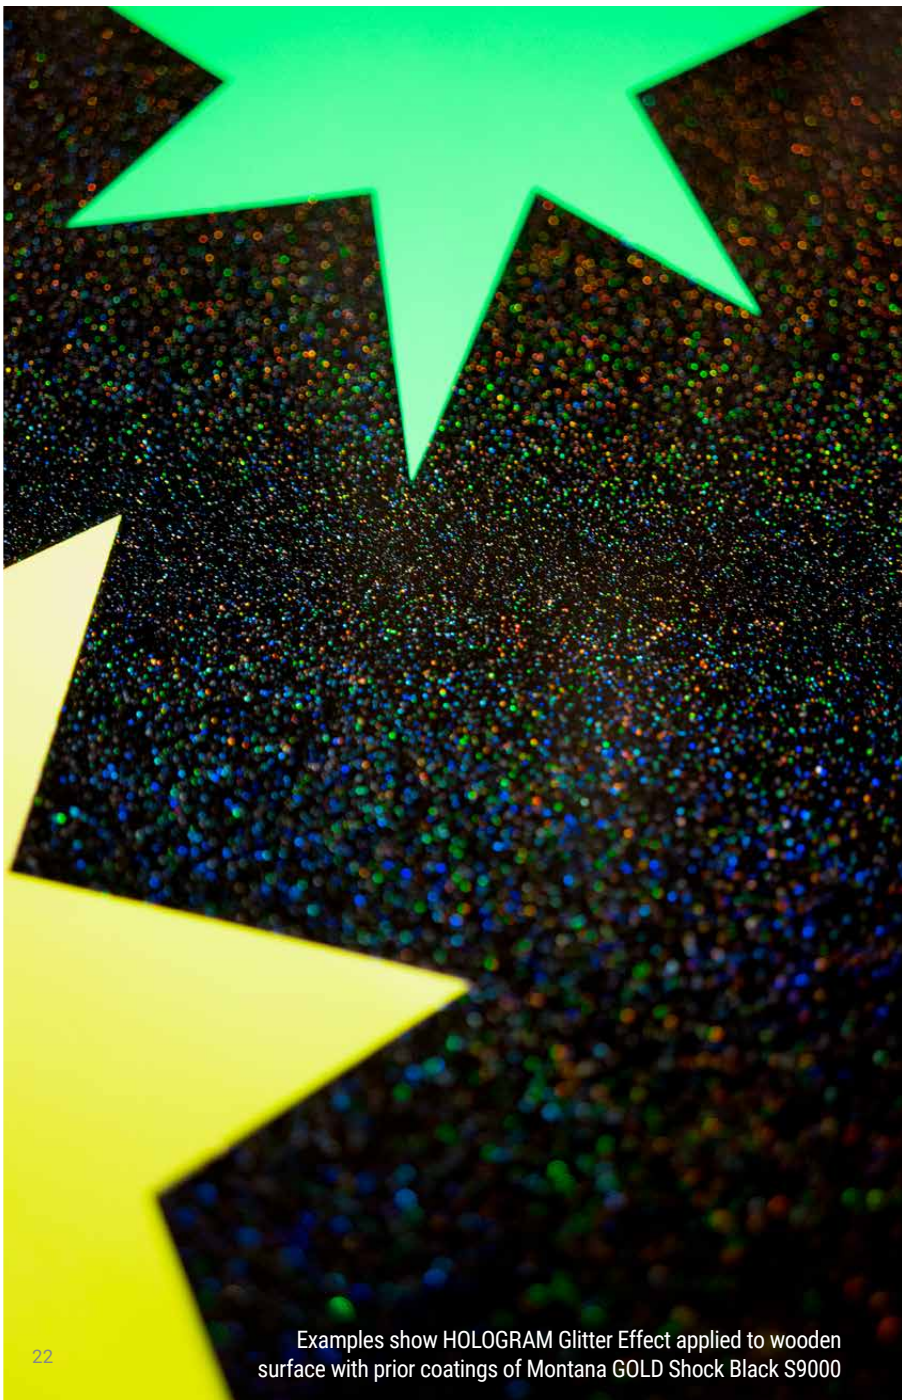

The Montana METALLIC Effect Sprays bring state of the art paint technology to traditional metallic effect colors. Loaded with a Montana Standard cap, these cans provide excellent delivery and reliability under medium pressure output. Not only are the Montana METALLIC Effect colors ideal for application on functional objects such as bikes and furniture, they can also add a metallic flare to any creative or artistic project on paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. Made from an Acrylic-Nitro Combination base, the paint surface dries to a durable semi-gloss finish which is both hard wearing when cured (24+ hours) as well as flexible. Offering great lightfastness, the Montana METALLIC

Effect line can also be combined with the Montana GOLD, Montana BLACK and Montana ACRYLIC marker lines.

For best results shake can vigorously for approximately 3 minutes before use and apply at a distance of 15cm - 20cm to a pre-primed substrate. Re-shake between intervals to assure settled pigment is re-mixed. To enhance color result even further, pre-prime substrate with a similar Montana GOLD color as base. Apply in thin multiple layers, varying application strokes from vertical to horizontal on each run. Optimum use temperature is between 10 and 15 degrees Celsius. Drying time is normally around 10 mins for dust dry, 20 minutes for touch dry and 24 hours for total curing.

Examples show HOLOGRAM Glitter Effect applied to wooden surface with prior coatings of Montana GOLD Shock Black S9000

HOLOGRAM GLITTER 400ML

TRANSLUCENT METALLIC GLITTER PARTICLE EFFECT

Montana HOLOGRAM GLITTER Effect – The translucent semi gloss, nitro combi base is the vehicle carrying the high quality fine holographic glitter particles for a sensational metallic effect that can add a totally new dimension to all kinds of surfaces. From paper to cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and just about any other paintable surface. Once applied, the semi gloss lacquer layer will have embed a fine distribution of holographic particles over the substrate. The more coats applied, the greater the saturation of the holographic particles and thus increasing the intensity of the effect. Applying a layer (or several layers) of Montana Gloss Varnish will not only protect the surface of your work, it will also allow more light to reflect on the holographic particles and enhance the effect further. The final result will significantly be influenced by the color and gloss level of the undercoat.

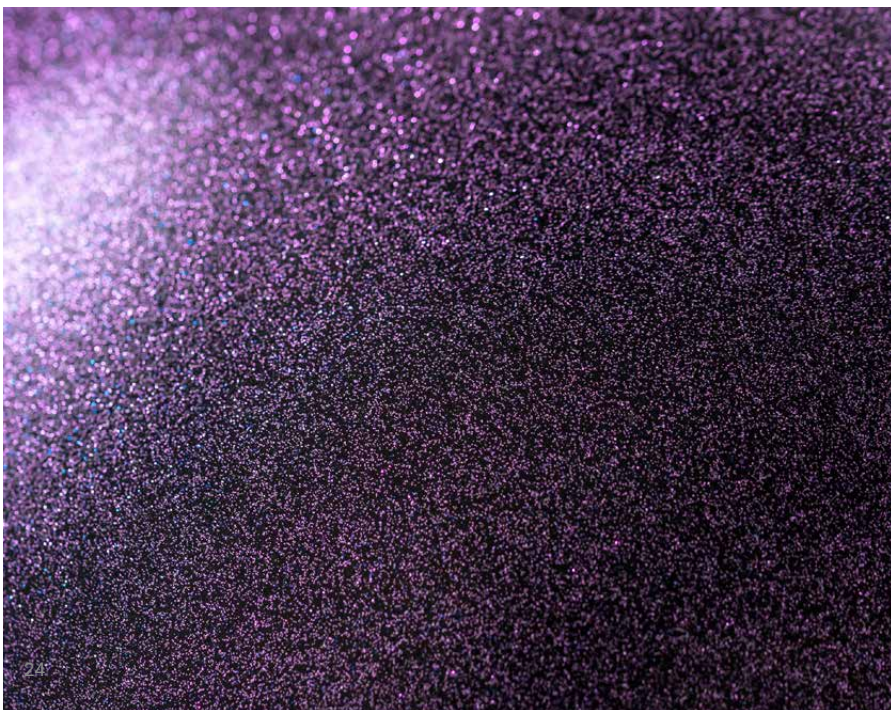

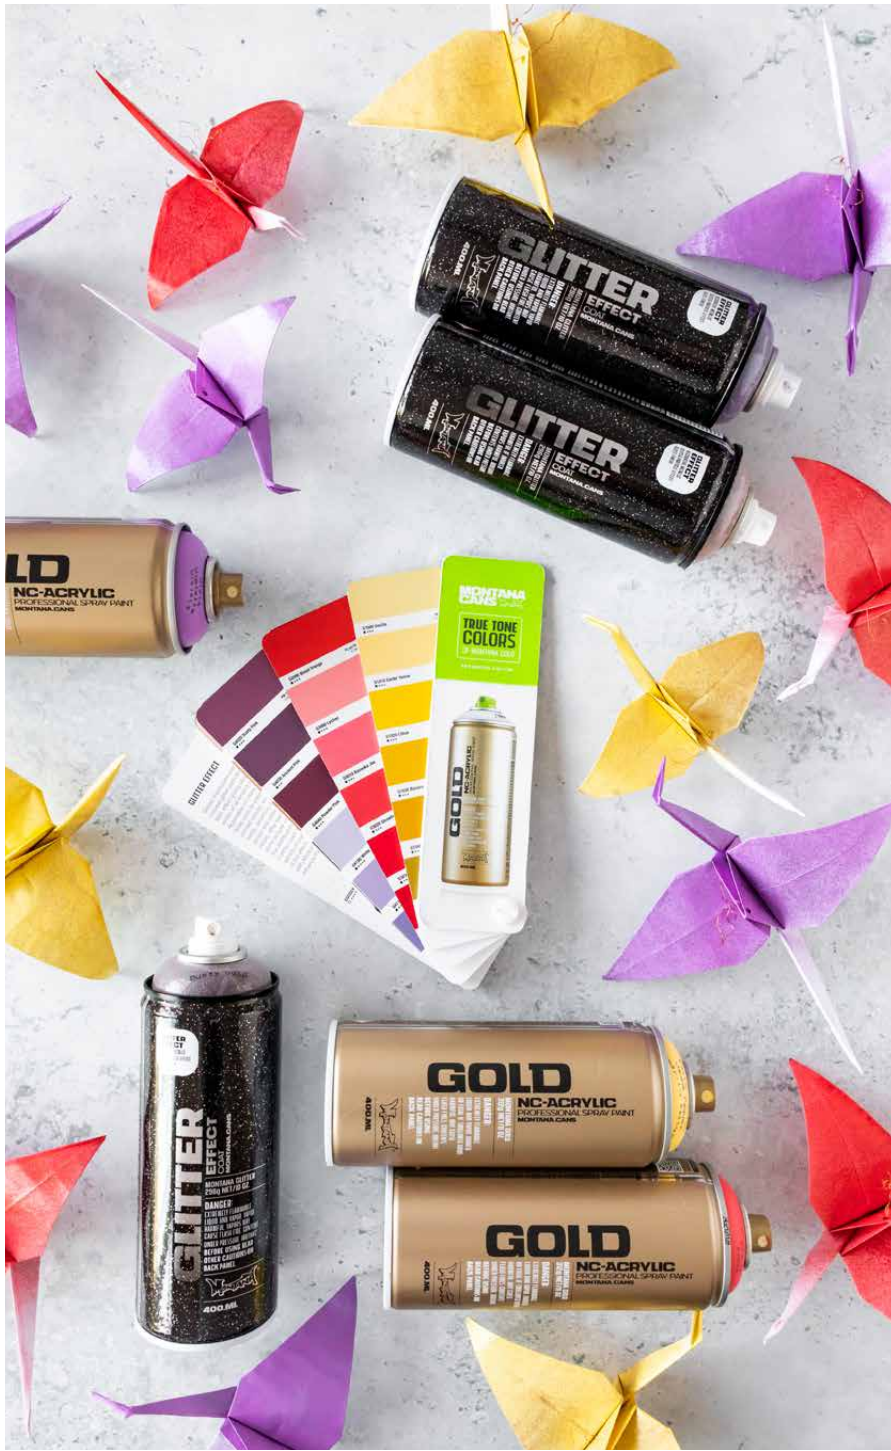

For best results we recommend applying the translucent HOLOGRAM Glitter Effect over Montana GOLD, Shock Black SH9000 or a dark colored underground that has had time to cure, allowing contrast to occur for the glitter particles to reflect on!

Hologram Glitter Effect (on black ground)

TNR 463051

Example shows GLITTER effect applied with a stencil on a black primed canvas

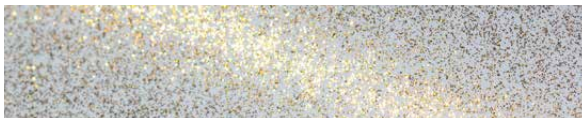

GLITTER EFFECT 400ML

GLOSSY TRANSLUCENT VARNISH WITH SILVER GLITTER PARTICLES

Montana GLITTER EFFECT is a glossy translucent paint with silver colored glitter particles for a metallic effect giving objects and artworks of all kinds a refined finish. Applicable on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. After being applied, a thin shiny lacquer coat will show with a fine distribution of glitter particles. Further coats will lead to a higher density of particles and intensify of the effect. We recommend finishing your project with the Montana VARNISH Gloss to enhance the metallic effect. Please consider that the achieved final result will significantly be influenced by the color and gloss level of the undercoat. The glitter particles are carried in a clear base that can easily be covered with many common lacquer types. Can be combined with Montana GOLD, Montana ACRYLIC markers and conventional acrylic paints.

MARBLE EFFECT 400ML

HIGH-COVERING SPRAY PAINT FOR A DECEIVINGLY REALISTIC MARBLE EFFECT

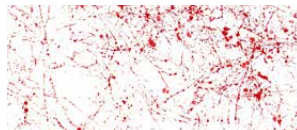

High-covering spray paint for a deceivingly realistic marble effect – Now available in three new colors: Marble Yellow, Marble Grey and Marble Copper! The Montana MARBLE Effect can be used on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. The MARBLE effect is formed by very fine colored paint strands on the surface area of the object in question. The area which is to be sprayed is not entirely covered and will stay partially visible. Can be top-coated with many common lacquer types once thoroughly dry. MARBLE Effect can be combined with Montana GOLD, Montana ACRYLIC markers and customary acrylic paints. The MARBLE Effect can come standard with a calligraphy that can be adjusted to create spray output lines in vertical, horizontal or variations thereof.

CRACKLE effect painted on wooden surface combined with Montana GOLD

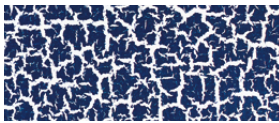

CRACKLE EFFECT 400ML

EFFECT LACQUER FOR A SPECIAL VINTAGE LOOK

CRACKLE lacquer for the special crackle-look (e.g. for a vintage or used-look). Prior coating of your object is necessary with Montana GOLD, Montana WHITE, Montana VARNISH or Montana PRIMER. After extensively applying CRACKLE Effect to your primed area, the distressing (cracking) process will begin to occur. Must be applied to completely dry base coat. The CRACKLE spray is high-covering and can be top-coated when completely dry and cured. Can be combined with Montana GOLD, Montana ACRYLIC markers and customary acrylic paints. Available in the following colors: gentian blue (RAL 5010), patina green (RAL 6000), squirrel grey (RAL 7000), copper brown (RAL 8004), pure white (RAL 9010) and traffic black (RAL 9017).

GRANIT EFFECT 400ML

WATER-BASED SPECIAL EFFECT SPRAY PAINT

Water-based special effect spray paint with fine plastic particles for a deceptively realistic granite effect. Applicable on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, polystyrene and other paintable acrylic materials. The Montana GRANIT Effect is very high covering. For best results it is advisable to prime your surface when using light colored GRANIT Effect shades, particularly when painting on dark surfaces. We recommend using the Montana PRIMER or the Montana TEXTURE spray. The latter will enhance the GRANIT look even more. Can be top-coated once thoroughly dry. Can be combined with Montana GOLD, Montana ACRYLIC markers and standard acrylic paints. The GRANIT Effect spray also works well as a structure spray. Lightly coat dry areas to receive the desired granite-look. Available in the following colors: light grey, grey, brown and black.

NIGHTGLOW effect: decorative objects painted with Montana NIGHTGLOW luminescent green and orange loaded with a LED light

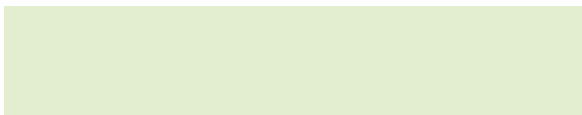

NIGHTGLOW EFFECT 400ML

NEW QUALITY GLOWS LONGER & MORE INTENSE

The Montana NIGHTGLOW not only now has a new improved formula, it is also complimented by a second color in the range called luminescent-orange! The new and improved Montana NIGHTGLOW quality is a high-grade acrylic paint which contains luminescent pigments, that store light (absorbed energy) and emit the light in darkness. The new formula exhibits higher light emission for longer duration, making the Montana NIGHTGLOW's high-grade luminescence-pigments even more powerful. This luminiscence-effect is only visible during total darkness. The period is depending on intensity or irradiation and thickness of paint layer (it is recommended to apply multiple layers of NIGHTGLOW paint lacquer on the primed surface). The highest possible degree of shining is immediately after loading the painted object then it fades away. For indoor and outdoor applications. For best glow effects use in a completely dark environment without any light sources. Use a strong source of light to load the effect paint temporarily.

The effect spray is suitable for all smooth, rough or light responding primed surfaces. e. g. metal, wood, hard plastics, primed carton, walls etc. We recommend to prime the ground with Montana GOLD Shock WHITE 9100 to achieve best glow effects. Consider longer drying time depending on substrate. Limited resistance to weathering, light and UV-influences. To improve resistance, we recommend to varnish with Montana VARNISH Gloss 400ml. Recommended to use with Montana Fat Caps (e.g. black / orange).

THE MONTANA-CANS **TECH** SPRAYS

CLEAN, PRIME & SEAL PROFESSIONALLY

The Montana TECH series offers different sprays as a perfect addition to Montana color and effect sprays. Besides three Varnishes there are now four special Primers for professional pre-treatment of different surfaces. ACETONE spray also known as CAP CLEANER serves as a thinner or cleaner. Montana REMOVER can be used to remove paint residues from concrete and other surfaces. A further new innovation is the Montana TEXTURE coat to generate sculptured impasto surfaces. Endless possibilities of new techniques and effects can be achieved using the TECH sprays and Montana GOLD together!

Example shows TEXTURE spray applied on a canvas and shaped with a pallet knife

Example shows TEXTURE coat being overpainted with Montana GOLD

TEXTURE COAT 400ML

THICK COATING SPRAY

Grey texture spray to generate sculptured impasto surfaces. Suitable for creative works of all kinds, as well as filling material to patch up small irregularities such as cracks, holes or as a foundation. Applicable on many different surfaces such as wood, glass, stone, ceramics, porcelain, acrylic and other non-elastic surfaces. By spraying your object with a thick layer of the TEXTURE spray, the foundation will be coated with a high-grade, well adhering substance that can be molded while wet to achieve the desired structure. The structure spray can be wet sanded after a very short drying time. After thoroughly dry and cured, TEXTURE spray can be top-coated with many common lacquer types. The TEXTURE spray has good adherence and is highly water resistant. TEXTURE spray offers a high layering and thick filling capacity due to excellent paint stability. TEXTURE spray offers increased anticorrosive protection to the surfaces it is applied to.

Example shows object (synthetic surface) primed with PLASTIC PRIMER, painted with Montana GOLD Shock Black and sealed with Montana VARNISH Gloss afterwards

Example shows STYROFOAM PRIMER applied on a styrofoam element

PRIMER SPRAYS 400ML

PROFESSIONAL SURFACE TREATMENT

Montana PRIMER sprays enable excellent adhesion and further coating of synthetic, nitro-combi or acrylic-based spray paints. Montana offers different primers for application on different surfaces that need to be pre-treated such as plastic, metal, aluminium, and styrofoam. The Universal Primer also works on leather, cardboards, wood and many other materials. After the Primers have been applied it is possible to work with Montana spray paints on the pre-treated area. Use Primers for efficient and longer-lasting results. Easy to apply, sand and re-coat. Please ensure that any foam surface is completely sealed and all air pockets closed. This can be achieved by applying multiple thin even coats. Open-air pockets may lead to paint solvents agitating the foam. For indoor and outdoor applications. Available as 400ml.

T2400 Metal Primer

TNR 376320

T2450 Aluminium Primer

TNR 518089

ALUMINIUM PRIMER

TNR 518089

The Montana ALUMINIUM Primer is a quick-drying primer for the optimal pretreatment of aluminium surfaces to increase protection against flaking and cracking. The primer is ideal for use on aluminium. In limited conditions can be used on copper and zinc. Montana Aluminium Primer can be coated with Montana GOLD, Montana BLACK, Montana WHITE, Montana TECH, EFFECT range colors. Always test before using on a non-visible area of the object. Available as 400ml.

POLYSTYRENE PRIMER

TNR 376337

The Montana Polystyrene Primer provides an additional (protective) layer on Polystyrene, allowing later application of varnish and acid free paint to be possible. The primer seals the styrofoam and protects against reactions from paint lacquer. Always test before using on a non-visible area of the object. Available as 400ml.

METAL PRIMER

TNR 376320

The Montana Metal Primer - a quick drying primer for the perfect pre-treatment of metal surfaces that need to be protected from rust. The primer can be used on metals like iron, steel or mineral surfaces. Montana Metal Primer can be used on Montana sprays with a synthetic, acrylic or nitro-combination base. Available as 400ml.

UNIVERSAL PRIMER

TNR 376313

The Universal Primer also works on leather, cardboards, wood and many other materials. After the Primer has been applied you can work with Montana spray paints on the pretreated area. Easy to apply, sand and re-coat. For indoor and outdoor applications. Available as 400ml.

PLASTIC PRIMER

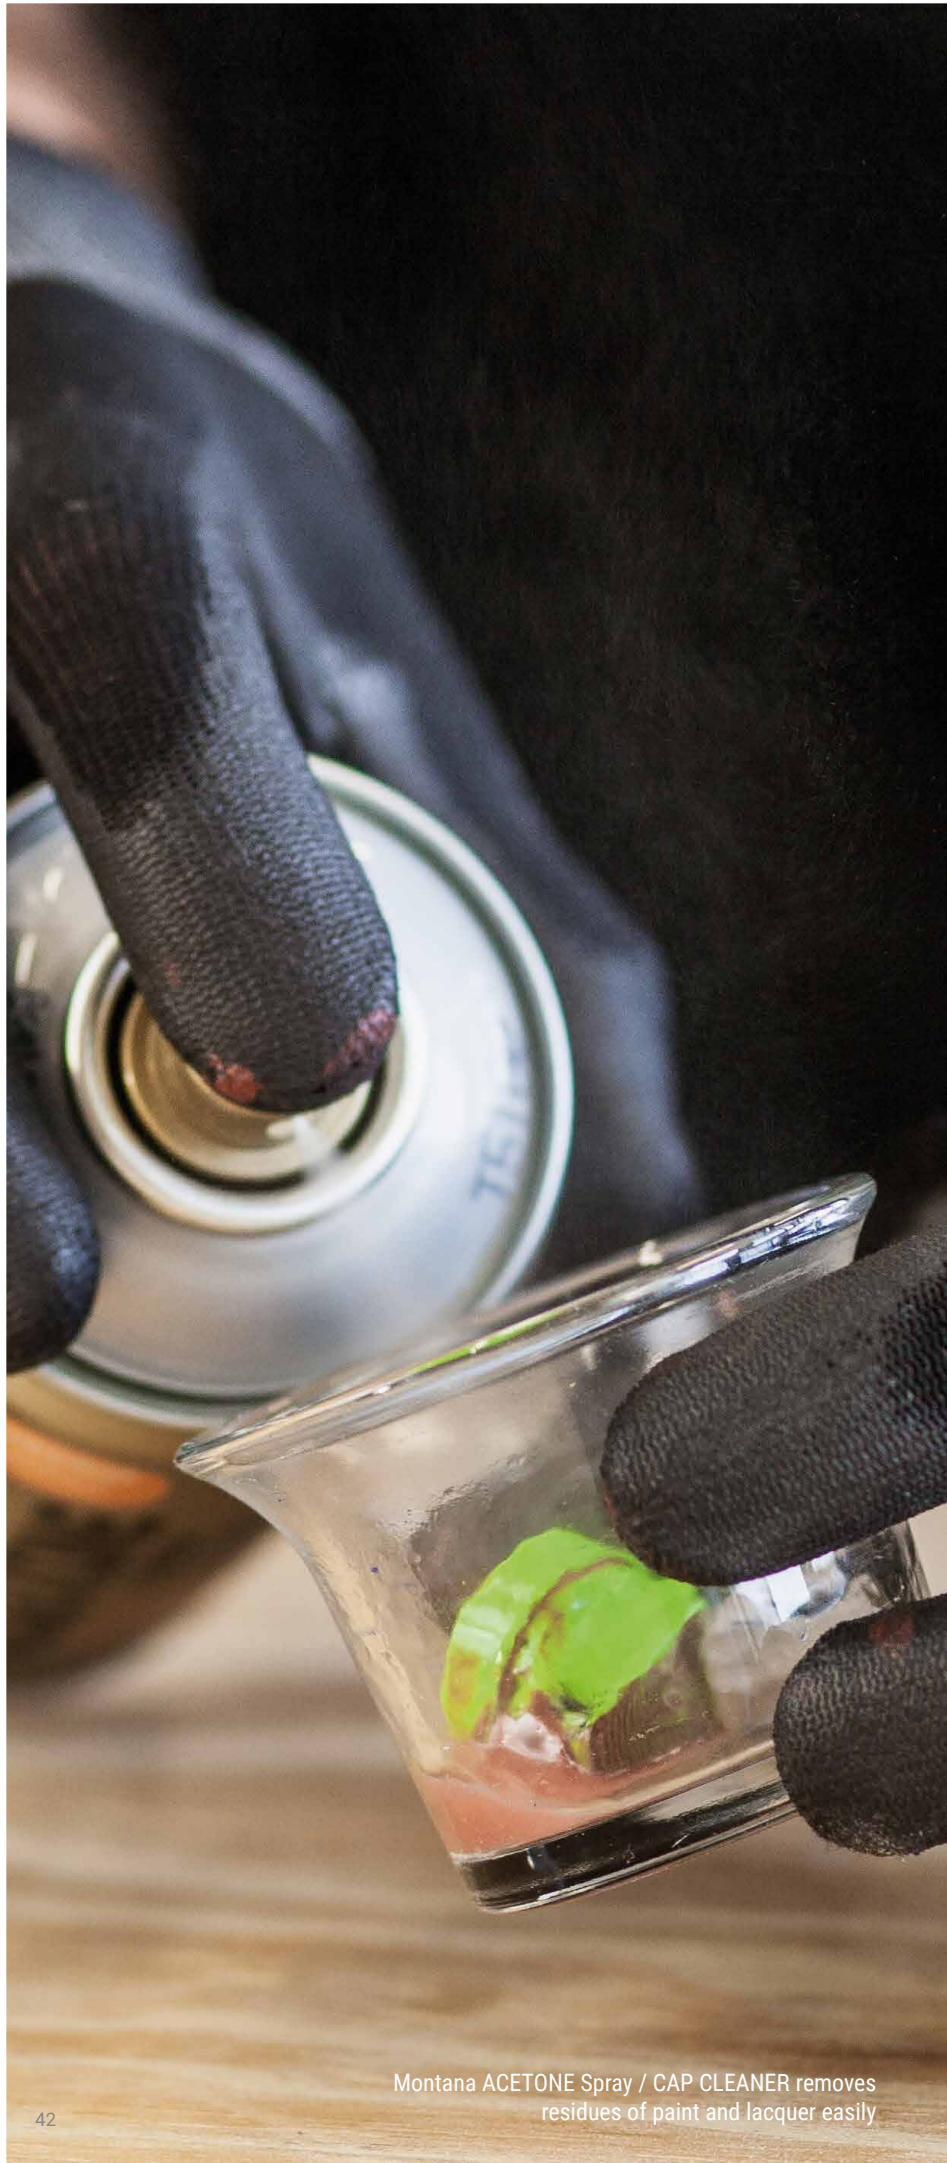

TNR 376344

Montana Plastic Primer is the perfect pre-treatment for plastic surfaces. After priming and drying, plastic surfaces can be painted with Montana sprays that have a synthetic, acrylic, or nitro-combination base. Available as 400ml. Can be used with the following types of plastic:

Polypropylene Rubber, Modified (EPDM),
Acrylic Butadiene Styrene Plastics (ABS),
Glass-Fibre Reinforced Plastics (GfK),

Hard Polyvinyl Chloride (Hard-Pvc),
Polyurethane (PUR), Polystyrene (PS),
Polyamide (PA)

Montana ACETONE Spray / CAP CLEANER removes
residues of paint and lacquer easily

also great for decorative effects!

ACETONE SPRAY/ CAP CLEANER 400ML

CLEANING AGENT & THINNER

Montana ACETONE spray also known as CAP CLEANER is a universal thinner and cleaning agent that is transparent in color. Removes residues of paint, lacquer, silicone, wax, tar and degreases. Suitable for pre-treatment before painting objects or to remove paint residues after painting. Can be used on porcelain, glass, ceramics, blank metals and others. Evaporates quickly without leaving residues.

Non-corrosive. Always test spray on a non-visible area to check for any reactions to lacquer or paint, especially when used on plastic grounds as it may etch synthetic surfaces. Perfect when used as CAP CLEANER to clean used and clogged nozzles. Put used nozzles on the ACE-TONE can and clean by spraying.

Available as 400ml.

T5100 Acetone (Cap Cleaner)

TNR 376382

ADHESIVE SPRAY 400ML

PERMANENT

Montana ADHESIVE spray is an acid-free spray glue consisting of a synthetic base with solvents for permanent adhesion. Suitable for most materials like foam, jute, felt, textiles, insulating material, expanded polystyrene, plastics, foils, paper, cardboard, wood and to adhere inlays. Not suitable for use with artificial leather or other materials with plasticizing agents or softeners (e.g. plasticized PVC). Always test before use. Can be applied to one or both surfaces to be adhered. Final adhesion strength is reached after 24 hours. Can be applied in a temperature range of -10°C (14°F) to 50°C (122°F) subject to materials used and their weights. Does not bleed through when used on textiles. Suitable for craft & paperwork. Clean and efficient when applied over small or large areas. Available as 400ml and 150ml.

TNR 376269

REMOVER SPRAY 400ML

PAINT STRIPPER

Pollution free etching spray for most usual types of lacquer. Montana REMOVER spray dissolves and removes lacquers thoroughly. Do not use on cars! Application is possible on many surfaces such as walls, clay bricks, stone, concrete surfaces, marble, asphalt, glass, metal and wooden surfaces. It becomes a gel-like consistency, to keep from running off vertical surfaces. Application on non-ferrous metals might cause discoloration. Content is ph-neutral / acid-free. Available as 400ml.

RM400REMOVER

TNR376290

VARNISH spray applied on a painted canvas to show different gloss levels

VARNISH SPRAY 400ML

UV-PROTECTION

Acid-free, quick drying, clear varnish made of acrylic base. No yellowing or de-saturation. For interior and exterior use. Available in gloss, semi-gloss, matte finish. Gloss level shown on donut (see top of can). Protects and fixes paint on surfaces like canvas, paper, charcoal drawing, bast fibre, wood, photos, etc. Protects against oxidation and UV light. The more coats applied, the stronger the UV protection. During application, protect the object and the surrounding area from spray. Surfaces should be dry, clean of dust, oils and rust before applying the varnish.

Shake can well for 2-3 minutes upside down to take advantage of gravity. Remove the safety ring by removing the nozzle and turning the can upside down allowing it to fall out. Then re-apply the nozzle. Apply varnish in several thin layers, spraying before the previous coat is fully dry but with 2 minutes between each pass. Further coats might require a drying time of 24 hours or more depending on substrate. For optimal lifespan, always store cans with the nozzle on. NOT COMPATIBLE WITH SYNTHETIC BASE LACQUERS. Always recommended to be tested on a non-visible area to check compatibility of lacquer or paint.

THE MONTANA-CANS **PAINT** SPRAYS

HIGHEST QUALITY PAINT MADE IN GERMANY

Montana offers tools not only for the creative minds but also for professionals, especially since all ingredients are of highest quality. The famous Montana GOLD is known and appreciated for its wide color range, excellent for fine art or mural painting. Combined with the new Montana TECH series or the ACRYLIC markers Montana GOLD proves to be multifaceted as well as versatile. The Montana BLACK can is the winterproof allrounder spray can beloved by artists for graffiti, thanks to its durability. For an ultimate urban street calligraphy experience the Montana ULTRA WIDE provides wide line work from 15 to 60 cm. Further the Montana WHITE series offers a budget-friendly high gloss finish to your street art project.

MONTANA GOLD 400ML

HIGH COVERING NC-ACRYLIC-BASED SPRAY PAINT

High-covering and quick-drying nitro-acrylic lacquer that can be applied on canvas, wood, concrete, metal, glass or even flexible surfaces with no cracking or color bleaching. Montana GOLD spray paint is famous for its superior quality. Highly reliable, it provides artists and hobbyists alike with the perfect tool for creative work. High accuracy is ensured through Montana Gold's exclusively developed low pressure system. In combination with the variety of Montana level caps available, artists will experience a new era of spray painting possibilities. Soft handling allows the finest details and the smoothest application. From very thin to super wide lines, Montana Gold makes it all possible! With 215 possibilities, Montana GOLD offers one of the largest and most concise color range available in spray paint.

Montana GOLD spray paint is also perfect for any kind of mixed media use – also compatible with the Montana ACRYLIC paint. Colors carrying the same name will color match to the Montana ACRYLIC colors once sealed with the Montana VARNISH Gloss. When combined with Montana GOLD we recommend to apply ACRYLIC paint with a brush or airbrush for best results.

The Montana GOLD True Tone Color Swatch provides all 215 MONTANA GOLD colors in the original tone and includes Montana TECH- and EFFECT SPRAYS. The Guide offers you a safe planning whether you are looking for a wall, a bicycle or a train painting!

Available now!

HIGHEST STANDARDS FOR THE BEST QUALITY

The lacquer of the Montana GOLD consists of solvent-based nitro-acrylic mixture. Only the finest ingredients and best pigments have been used for the development and production of the Montana GOLD, assuring the highest standard of quality. It can be combined with other acrylic lacquers as well as with the lacquer of the majority of other spray cans brands. Montana GOLD can also be applied with traditional brushes (or airbrush). Spray Montana GOLD lacquer into a small cup and apply the paint with traditional brushes when working on details or on smaller areas. Brushes or other tools can be cleaned easily with Montana Acetone spray.

LOW PRESSURE & HANDLING

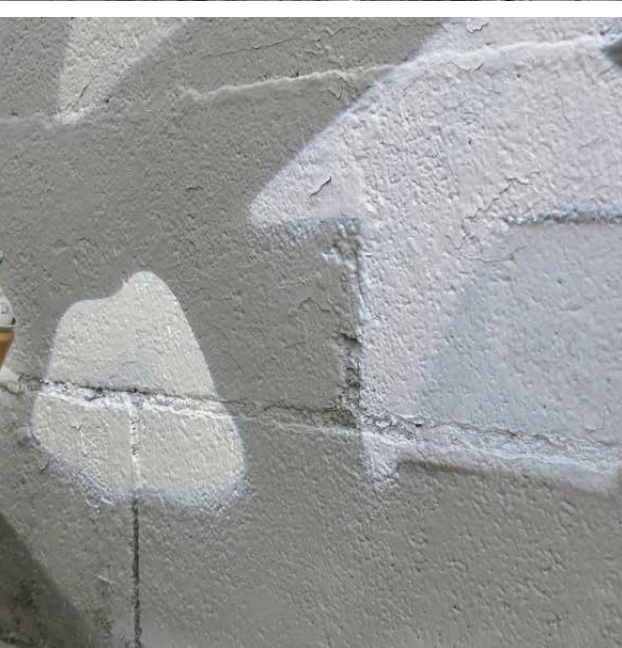

The low pressure system allows perfect handling. The level's of control that are able to be achieved with this can have never existed before. The Montana Level caps were precisely developed to the new low pressure system allowing the most even and clean lines with the highest efficiency and accuracy. Spray widths from 0,4cm up to 25cm can be achieved depending on users skill and experience. For perfect results we recommend the LEVEL Cap System in combination with the Montana GOLD.

MONTANA GOLD COLORS

MONTANA GOLD'S SPECIAL RANGES

SHOCK COLOR SHADES

The Montana GOLD Shock range was developed as a mini Montana GOLD assortment with the most high covering colors within these color scales chosen. This system was also introduced as the water-based ACRYLIC Ink Markers and Refills, making it possible to use the strong, opaque colors in more mediums.

CLASSIC COLOR SHADES

Back in the days before manufacturers created high opacity spray paint for the specific use of graffiti art or urban art, there were a few “classic” colors that were the preference of many street based artists. Normally chosen for their opacity or color impact, the Montana GOLD line has adopted a special place within the color range for these historical colors.

CL2100	Shrimp Pastel	TNR 283604
CL2120	Shrimp	TNR 283611

CL8310	Hazelnut	TNR 283796
CL8320	Chestnut	TNR 283802

EFFECT & METALLIC COLOR SHADES

Chrome effects are achieved by having metallic pigment particles located on the surface. This is achieved by the lacquer remaining “open” so that light can shine and reflect off these particles. However this results in chrome effect shades being less weather resistant and not abrasion proof. Finger marks may occur if handling chrome effect sprayed items. Applying Montana VARNISH will offer greater protection and seal the painted surfaces, however they make the paint appear less shiny and prevent it from reflecting light as efficiently.

M1000	Silverchrome (EFFECT)	TNR 285912
M1100	Silver Matt (METALLIC)	TNR 285929
M2000	Copperchrome (EFFECT)	TNR 285936

CAP SET DIY

The new Montana Cans DIY Cap Set is not only ideal for covering surface area efficiently, it is also perfect for those projects where a seamless finish matters. The Set is a hang sell pack of six caps, featuring three Flat Jet- Medium spray caps and three Flat Jet- Wide spray caps.

TNR 481390

FLUORESCENT COLOR SHADES

Famous for being able to glow under UV light. For best results we recommend fluorescent colors to be applied to pre-primed, dry white surfaces (e.g. Shock White) to increase luminosity and improve coverage. Applying Montana VARNISH will offer greater UV protection however may hinder the fluorescent effect slightly. In general fluorescent colors are less lightfast and not resistant to the elements.

F1000	Flash Yellow	TNR 283819
F2000	Power Orange	TNR 283826
F3000	Fire Red	TNR 283833

F5000	Flame Blue	TNR 283864
F6000	Acid Green	TNR 283888
F9100	Disco White	TNR 439537

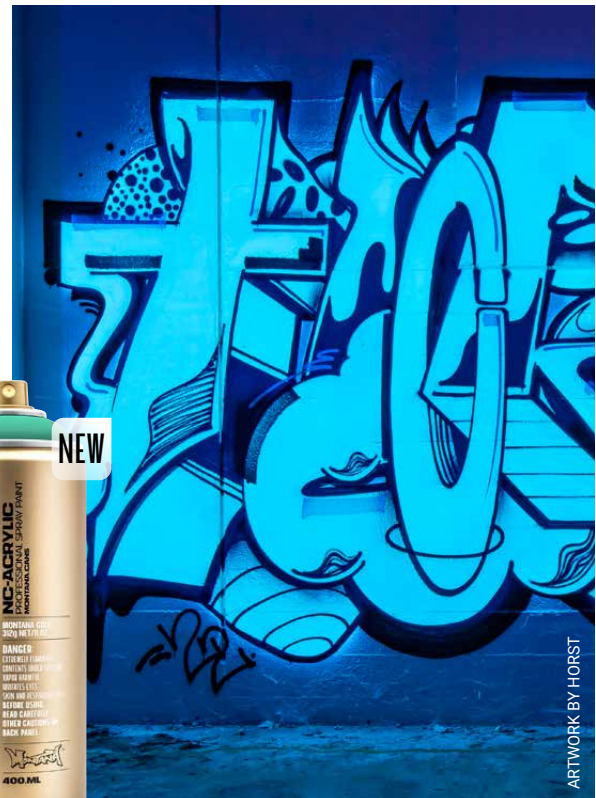

FLUORESCENT ACTIVE CYAN

The Montana GOLD range now has a new fluorescent color to complement the existing fluorescent line. Latest to the fluorescent color family is Montana Active Cyan 6200. As with the existing fluorescent colors, Active Cyan offer the stunning visibility in darkness effect (or glow in the dark) when under UV light. However the Fluor Transparent has an added feature in that it is not visible in daylight, thus captivating viewers with an element of surprise when under UV light. Applying thin, multiple layers will enhance and increase the glowing effects. To add durability and protection, the fully dry and cured surface can be sealed with Montana VARNISH Spray in Matt, Semi-Gloss or Gloss.

ARTWORK BY HORST

The CHALKSPRAY is ideal for outdoor marking!
Example shows CHALK applied with a stencil

CHALKSPRAY 400ML

HIGH QUALITY PIGMENTED CHALK PAINT

The CHALKSPRAY is a chalk-based pigment spray that is ideal for outdoor temporary marking as well as for indoor studio artwork. Available in 10 powerful color shades that are deep matte and high covering. Montana CHALKSPRAY can be applied on various surfaces such as sidewalks, walls, cardboard or canvas. Depending on weather conditions and climate outdoor marking lasts between several days to several weeks. It fades more quickly during extended periods of rain or in high traffic areas. On non-porous surfaces like glass or metal the pigments can be removed easily. Removal from porous surfaces may take longer. Montana CHALKSPRAY impresses by its feel and look - the typical rough chalk effect.

MONTANA WHITE 400ML

HIGH QUALITY SPRAY PAINT

The Montana WHITE 400ml is created for the budget continuous user that demands quality. Rather than focusing on marketing and hype, we have invested our energy into quality and affordability as the priorities for the Montana WHITE 400ml range. Consisting of 51 high covering opaque colors, we have created the Montana WHITE color range as a solid ground for all purposes. Montana WHITE utilizes a synthetic paint base to achieve a fast drying time, with a gloss finish. The high pressure valve system allows for fast application over greater surface area. Functioning in all weather conditions, the Montana WHITE 400ml is an all year, allrounder, made in Germany to the highest quality standards for the best price.

MONTANA BLACK INFRA 400ML

THE FAMOUS- HIGH PRESSURE & HIGHEST COVERING
#GERMANSPRAYPAINT

Since the creation of the current quality Montana BLACK range, the INFRA colors have always been high performing fluorescent colors in the eyes of graffiti artists the world over. Without fail, they delivered luminosity, coverage and handling. But that was not enough for us. We wanted them to be even better! And now we have achieved it. The new formula INFRA colors don't just cover more surface area than before, they boast increased color vibrance and the same performance and handling that you know and love from the Montana BLACK range. The new Montana BLACK INFRA colors have even more opacity for better coverage and an increased color brilliance, making the colors even more intense. Cover a greater surface area in a shorter period of time. The new quality will release color by color and be marked by a temporary "NEW INFRA" icon on the can. After INFRA GREEN now INFRA ORANGE, followed by INFRA PINK, INFRA VIOLET, INFRA RED and INFRA YELLOW are available!

MONTANA WHITEOUT

HIGH COVERING HIGHLIGHT WHITE

The Montana WHITEOUT is the ultimate white colored street painting experience, developed specially for the graffiti user. This super covering, brilliant white has a matt finish that is sticker like in appearance when dry. Fast and smooth with superior handling, this white is the ultimate multi-tasker that can be used for filling in, outlining or the brightest of highlights. Excellent in combination with other graffiti specific tools. (please note: this is not a tar based product!)

High Pressure, Highest Coverage!

BLACKOUT TARBLACK

HIGHEST QUALITY NITRO-COMBI-TAR MIXTURE

The Montana BLACK range welcomes the return of the newly optimised, BLACKOUT Tarblack. This combination nitro-combi & Tar-Mix can is the perfect high pressure 400ml can to cover any chrome effect or metallic colors, wet or dry. The BLACKOUT Tarblack itself has an extremely fast drying time of around 2 minutes in conditions 15 degrees celcius or higher. This is about 3 times faster then normal tar products. With it's pigmented matt black tar formular, it also offers a rich black finish, as apposed to the prominent brown undertones you may be used to from other brands. Loaded with the Black/ Orange dot fat cap, be prepared to cover large surface area rapidly and cleanly. Particularly good on non-primed surfaces where paint would usually be absorbed, the BLACKOUT Tarblack leaves behind a beautifully opaque clean line (allow to dry completely before painting over).

MONTANA BLACK 50/150ML

HIGH QUALITY SPRAY PAINT IN POCKET SIZE

MONTANA BLACK 50ML

The Montana BLACK 50ml is a discrete and easy to carry can that is 9cm high, with a slender radius of 3.3cm. Available in the color black, this mini can is loaded with a black dot skinny cap as standard but can also be fitted with any of the caps in the Montana Cans range (excluding Ultra Wide caps). A great alternative to a marker, these little gems are beautifully packed and shipped in a Montana Cans branded black carton holding 15 pieces. The packaging also functions as an aesthetic point of sale stand or can be used as a counter display. Montana BLACK 50ml 15er TNR 396946

MONTANA BLACK 150ML

Montana BLACK 150ml is available in 6 powerful colors from the famous Montana BLACK color chart. The BLACK 150ml is a for fast painting and layering optimized Nitro-Combination lacquer. High-pressure and short drying time allows rapid re-application. Montana BLACK is weather and winter proof. Together with Montana BLACK 400ml and 600ml the perfect completion of the BLACK series. Made in Germany.

MONTANA SPIDER EFFECT 150ML

HIGHEST QUALITY SPRAY PAINT

Originating from the auto industry, the Montana Black Spider 150ml is proudly the original spider effect can. This easy to hold 150ml can delivers an impressive black color web-like spray output thanks to its high-pressure output. If applied close to the substrate, the effect results in tighter web lines. If applied further away from the substrate, the effect becomes more organic and loose. Loved by users creating calligraphy orientated works, the line output can be changed to create sketchy, pencil-like linework when the original FLAT JET WIDE CAP is replaced by a SKINNY or NEEDLE cap, as found in the Montana Cap range.

Spider Black

TNR 325489

MONTANA BLACK EXTENDED 600ML

HIGHEST QUALITY SPRAY PAINT

With the improved NC formula, the Montana Black 600ml is available in 14 high covering colors, totally compatible with the other members of the Montana BLACK family. With high pressure, fast drying time and perfect handling, this fast painting optimized can will enable you to cover larger surface areas efficiently and quietly. The highly pigmented non drip formula allows prompt overpainting on any surface. The Montana Black 600ml is made to the highest of quality. Made in Germany.

MONTANA ULTRAWIDE 750ML

URBAN CALLIGRAPHY TOOL A.K.A #GAMECHANGER

The largest member in the Montana Cans family is the 750ml ULTRA WIDE can. A ideal tool for contemporary urban calligraphy and ultra wide line work, the ULTRA WIDE can comes in 12 colors including the popular silverchrome. With a spray width variation from 15cm if applied rapidly at close range, to approx. 60cm if applied slower at a greater distance to the desired surface. Complimented by a specially developed yellow ULTRA WIDE calligraphy spray cap which is set in a horizontal spray position, users are able to maximize vertical stroke application and achieve a higher vertical spray reach of up to 2m higher than final stroke height. Maximum output can be achieved with Montana ULTRA WIDE CHROME. Due to high pressure beware of wide output and counterstroke! Surface area can be covered in exceptionally fast time. Now available in 12 colors!

MONTANA LEVEL CAPS

FROM VERY THIN TO EXTRA FAT

The Montana Level caps were developed to compliment the precision of the Montana GOLD's low pressure system allowing the most even and clean lines with the highest efficiency and accuracy. Compatible with all other Montana cans also, spray widths from 0.4cm up to 25cm can be achieved. The spray width changes as the distance of application to the substrate changes. For fatter or broader lines, spray from a further distance. Please note, due to higher paint output, using Fat Caps may result in dripping or excessive paint application in some contexts.

LEVEL 1 CAP

**Average paint width 0,4 – 1,5 cm.
100pcs per unit. TNR 291463**

The Level 1 Cap is the ultimate precision cap for the Montana GOLD and is the preferred outline cap for graffiti, street artists and urban artists. It also delivers excellent, accurate results on the Montana BLACK and WHITE can ranges, making it perfectly suited for D.I.Y and arts and crafts projects. Developed specifically for the Montana GOLD range, the Level 1 Cap was re-launched with even skinnier and cleaner results.

LEVEL 2 CAP

**Average paint width 0,6 - 2,5 cm.
100pcs per unit. TNR 291487**

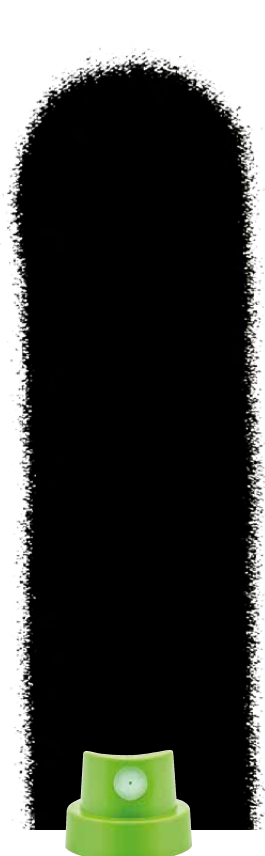

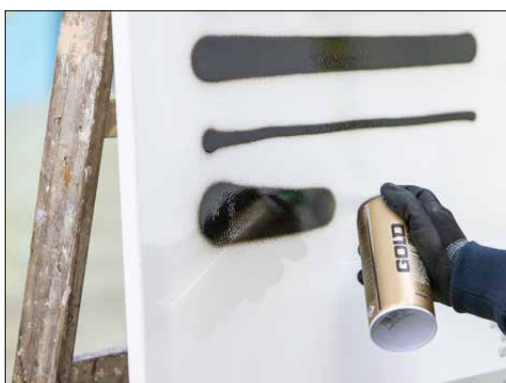

The Level 2 cap can be used in almost any context. As well as outlining, the Level 2 Cap is often used by artists working on close up details as in portraiture, figurative or realism. Art and craft projects can receive soft, smooth application and seamless color gradients. It is optimal for when colors need to be precisely layered next to each other. The spray width changes as the distance of application to the substrate changes.

LEVEL 3 CAP

**Average paint width 1 - 4 cm
100pcs per unit TNR 291500**

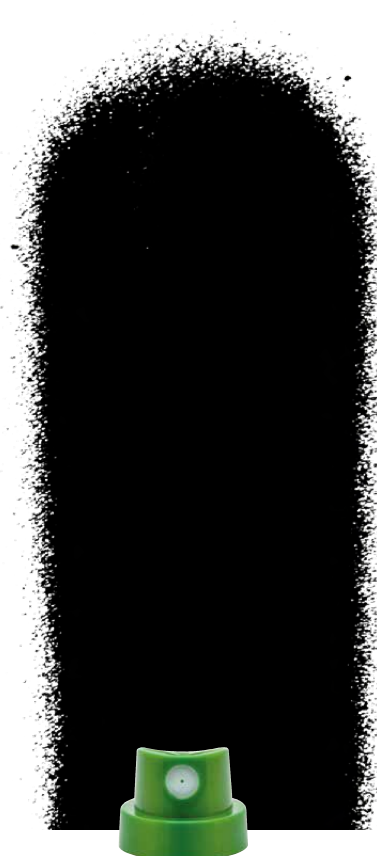

Often used in graffiti, street art and urban art to fade one or more color into another(s), the Level 3 cap can blend color with fine spray mist to make it difficult to see where one color was applied over the other. The Level 3 cap delivers excellent, accurate results on the Montana BLACK and WHITE can ranges, making it perfectly suited for D.I.Y and arts and crafts projects.

LEVEL 4 CAP

**Average paint width 3 – 10 cm.
100pcs per unit. TNR 291524**

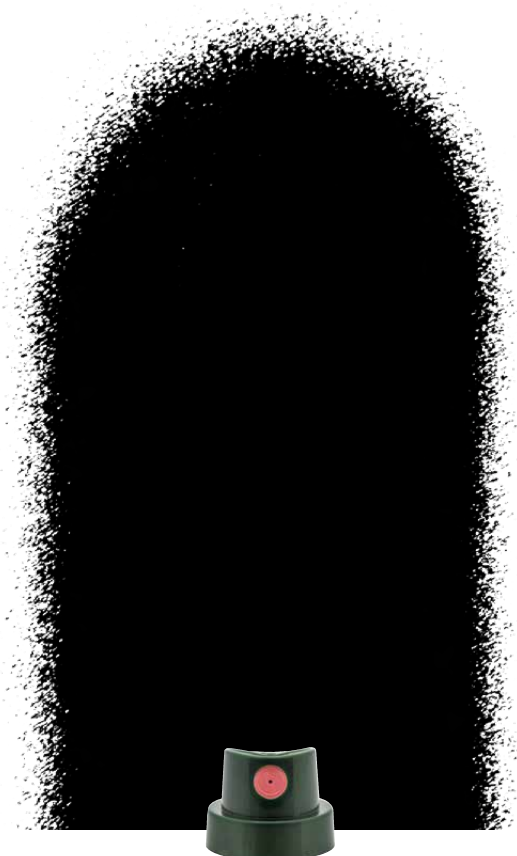

The Level 4 cap can be used in many contexts, but its strengths lie in its use to cover larger surface areas in a shorter time period. Often used by graffiti artists as a filling cap for artworks that need to be completed in a short period of time. The spray width changes as the distance of application to the substrate changes. For fatter or broader lines, spray from a further distance.

LEVEL 5 CAP

**Average paint width 4 - 15 cm.
100pcs per unit. TNR 291548**

The Level 5 cap can be used in many contexts, but its strengths lie in its use to cover larger surface areas in a shorter time period or outlining large works. The spray width changes as the distance of application to the substrate changes. For fatter or broader lines, spray from a further distance. Please note, due to higher paint output, using Fat Caps may result in dripping or excessive paint application in some contexts.

LEVEL 6 CAP

**Average paint width 5 - 25 cm.
100pcs per unit. TNR 291562**

The ultimate fill in cap for graffiti, street art and urban art, the Level 6 cap applies color with moderate to spray mist subject to wind conditions. The Level 6 cap can also be used with great results on the Montana BLACK and Montana WHITE can ranges. D.I.Y and arts and crafts project makers need to be aware that this cap is only for larger surface areas only. Applying to small projects will result in excessive paint application or drips.

MONTANA CAPS

MONTANA NOZZLES

MONTANA SKINNY CAPS

Note: For skinnier lines, spray from a closer distance. For fatter lines, spray from a further distance.

MACLAIM CAP

Average paint width 1 – 1,2 cm. Great for fine fadings and cut-offs. 100pcs per unit. TNR 196157

SKINNY CAP BLACK I BLACK

Average paint width 1 – 1,5 cm. Excellent for metallics. 100pcs per unit. TNR 156793

MONTANA OUTLINE CAP

Average paint width 1 – 4 cm. The spray width changes with the used distance to the object. 100pcs per unit. TNR 196102

SKINNY CAP WHITE/BEIGE

Average paint width 0,9 – 1,2 cm. Good for fine works, but stronger in the usage. Minimally grubby. 100pcs per unit. TNR 196140

O CAP (STANDARD)

Average paint width of ca. 1,2 cm. Due to its hard and scruffy outcome the lines getting a nice "old school"-look. 100pcs per unit. TNR 219108

AEROSOL ART

Average spray width of ca. 1 cm (0.5"). The Aerosol Art Cap is a skinny cap for a fine output. 100pcs per unit. TNR 156809

MONTANA EFFECT CAPS

Note: For skinnier lines, spray from a closer distance. For fatter lines, spray from a further distance.

CALLIGRAPHY CAP

Average paint width 1,5 – 8 cm. Special nozzle results in a calligraphy line. Suitable for filling in, but very drippy. 100pcs per unit. TNR 195907

FLAT JET CAP MEDIUM

Average paint width 6,1 – 8,1 cm. Both Flat Jet caps offer a flat spray trajectory that is able to be adjusted to a verticle or horizontal output similar to the Calligraphy Cap you may be used to. 100pcs per unit. TNR 422775

FLAT JET CAP WIDE

Average paint width 10,2 – 14 cm. Both Flat Jet caps offer a flat spray trajectory that is able to be adjusted to a verticle or horizontal output similar to the Calligraphy Cap you may be used to. 100pcs per unit. TNR 422799

NEEDLE CAP - EXTRA FINE

Average paint width 0,2 – 1 cm. Effect cap for sketch-like lines. Excellent for fine details, highlights or rough rendering. Similar to a standard cap. 100pcs per unit. TNR 369551

NEEDLE CAP - MEDIUM

Average paint width 1 – 2,2 cm. Similar to the Standard Cap it results in fine but dirty lines. Good for special highlights. 100pcs per unit. TNR 196119

NOTE: ALL CAPS MUST BE ORDERED AS MULTIPLES OF 100

MONTANA SOFT & FAT CAPS

Note: For skinnier lines, spray from a closer distance. For fatter lines, spray from a further distance.

SOFT CAP GREY/BLUE

Average paint width 4,5 cm.
Excellent for fading with Bombing cans, almost a fat cap. 100pcs per unit. TNR 399282

FAT CAP WHITE/ORANGE

Average paint width 8 cm.
Nice, clean fatcap. Not the widest though. 100pcs per unit. TNR 196201

FAT CAP WHITE/PINK

Average paint width 12 cm.
Excellent for fill-ins, fadings, big outlines. On chrome paints similar to Level 5 cap. 100pcs per unit. TNR 196218

FAT CAP GOLD/BLACK

Average spray width from 20 cm.
100pcs per unit. TNR 379260

NYC FAT CAP

Average paint width 4 - 6 cm.
Great, slightly wide outline cap. 100pcs per unit. TNR 156779

ACRYLIC 2MM FINE MARKER

HIGHEST QUALITY WATER-BASED PAINT MARKER

The Montana ACRYLIC Marker 2mm Fine offers a slightly larger felt tip than the 0.7mm version, which makes a slightly larger mark while still allowing fine detailed work. The 2mm round fiber tip has a smooth, soft application that makes line work, fill-ins and controlled application easy. For more calligraphic style work, simply replace the round tip with the 6mm chisel tip, opening up a whole new world of options. Transparent marker body for easy assessment of content. Replacement tips are available separately. Optimum flow control pump-valve system allows accurate handling and application. Montana ACRYLIC Marker FINE is also available as a refillable empty marker.

AVAILABLE IN 36 MATTE ACRYLIC COLORS

ACRYLIC PAINT REFILL 25ML

HIGHEST QUALITY WATER-BASED PAINT

Montana ACRYLIC Paint Refill in 25ml and 180ml are not just perfect to refill your Montana ACRYLIC markers with their original color, they are also ideal to use in any mixed media applications including airbrushing, traditional brush work and in conjunction with Montana ACRYLIC Empty Markers. Creating your own colors or diluting them with water to create color washes is easy and clean by mixing the amounts and shades you need in the Montana ACRYLIC empty bottles. Able to be applied to almost any surface such as canvas, wood, glass, walls and metal. With the Montana Applicator tip, the 25ml Refill Paints themselves now also become a squeezable mark making tool for smooth surfaces like glass, paper, plastic etc.

25ML AVAILABLE IN 36 HIGH COVERING WATER-BASED COLORS

UV-RESISTANT - INTERIOR & EXTERIOR

USE PERFECT FOR AIR BRUSH & BRUSH APPLICATION

CAN ALSO BE MIXED WITH TRADITIONAL ACRYLIC PAINT

THE APPLICATOR 10MM

The 10mm APPLICATOR rounded cloth tip for 25ml Montana ACRYLIC refill bottle. Apply to bottle and squeeze to regulate paint output. For best results use on smooth surfaces like paper, plastic or glass. For easy clean up run clean water through tip while attached to the refill bottle till no more color can be seen. Or leave to soak in clean water overnight.

ACRYLIC PAINT REFILL 180ML

HIGHEST QUALITY WATER-BASED PAINT

The Montana ACRYLIC PAINT Refills complete the Montana ACRYLIC marker range to offer all 34 matt colors and varnish gloss in the series as 180ml Refills. Now including also the 5 fluorescent color shades: Flash Yellow, Power Orange, Fire Red, Gleaming Pink and Acid Green. The ACRYLIC PAINT Refill bottles are the same high quality water-based paint that are nontoxic, ACMI approved and wearing the AP mark. Not only perfect for refilling your Montana ACRYLIC Markers, the Montana ACRYLIC COLORS also offer a wide variety of possible application techniques such as air brushing, mixed media, brush application and of course can be combined with the corresponding color from the Montana GOLD spray paint range. High Covering and quick drying.

180ML AVAILABLE IN 34 HIGH COVERING WATER-BASED COLORS

UV-RESISTANT - USE PERFECT FOR AIR BRUSH & BRUSH

APPLICATION CAN ALSO BE MIXED WITH TRADITIONAL ACRYLIC PAINT

ACRYLIC VARNISH GLOSS

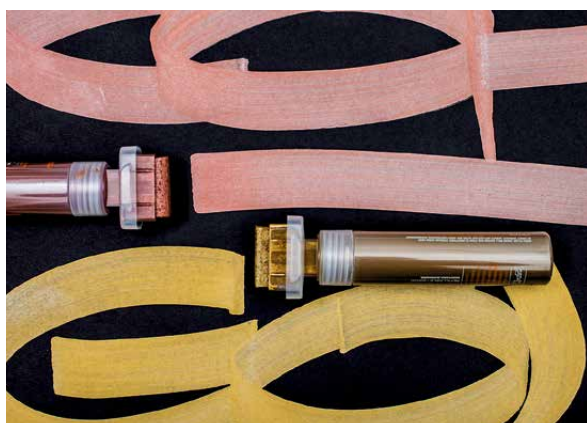

Can seal and protect Montana ACRYLIC artworks for longevity. Enhances effects and intensifies the visual impact of final artworks. Marker is refillable and the interchangeable tips can be replaced with the existing ACRYLIC marker replacement tips. With the flexibility to be applied in various forms e.g. by marker, brush and airbrush, the ACRYLIC Varnish Gloss can intensify and radiate the dry ACRYLIC colors it is applied to. This allows users to create depth to background/foreground work and be used as a tool to manipulate the play of light on artworks.

Order numbers on page 104 and 105

ACRYLIC METALLIC COLORS

GREAT FOR DECORATIVE USE

The Montana ACRYLIC marker range includes also the metallic colors Copper Matt and Gold Matt. These colors exhibit the highly opaque, excellent coverage and great color saturation that you have grown to love with the ACRYLIC color range. These colors are available in the 0.7mm Extra Fine, 2mm Fine, 15mm STANDARD marker and 25ml refills and in conjunction with the Silver Matt to round off the metallic selection nicely. The metallic shades are perfect for all kinds of art, design or decorative applications, especially on dark grounds due to their high coverage and contrast. Sealing with ACRYLIC Varnish Gloss or Montana Varnish Gloss spray will enhance their longevity but might reduce the metallic effect. It is recommended always to test before use!

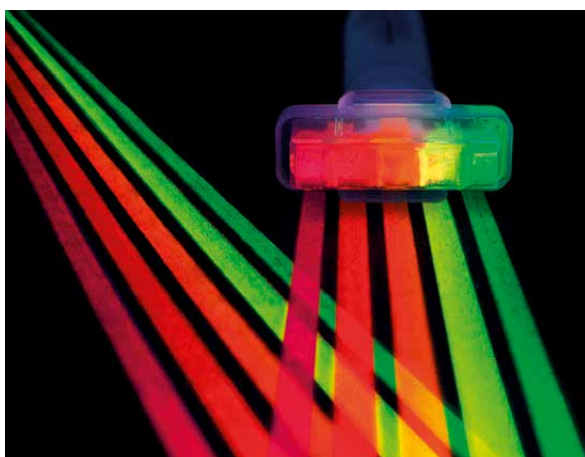

Copper Matt	high lightfastness
Gold Matt	high lightfastness
Silver Matt	high lightfastness

AVAILABLE IN 3 METALLIC TONES
GREAT EFFECT & COVERAGE ON DARK GROUNDS

ACRYLIC FLUORESCENT

LUMINOUS ACRYLIC COLOR SHADES:

The Montana ACRYLIC marker range is now more luminous than ever with the inclusion of the ACRYLIC fluorescent colors. Available as single Montana ACRYLIC Markers 2mm FINE or as an assorted set of six FINE markers (including the color SHOCK White Pure). The fluorescent colors are Flash Yellow, Power Orange, Fire Red, Gleaming Pink and Acid Green. Ideal for creating great fluorescent effects while matching their equivalent Montana GOLD can colors, the Montana ACRYLIC fluorescent colors also glow under UV light in darkness. The five ACRYLIC fluorescent colors are also available as 25ml and 180ml refill bottles, perfect in combination also for brush or airbrush application. For best results and greatest luminosity, apply to white or pre-whitened surfaces.

THE MONTANA **BOLD & EMPTY** **MARKERS**

MONTANA INK AND EMPTY MARKER RANGE

Art making is more than just black and white, even though it does not have to be exclusive thereof. And the growing Montana Empty marking products offer as much, or as little as any artist needs. Considering the wide variety of personal needs and techniques, pre-filled products may not offer the a solution for everyone. In 2018 we introduced the new Montana BOLD marker range. With BOLD, Montana-Cans has created tagging markers that merge function, quality and style. Made in Germany, these sleek Montana Markers will be the basis of all tagging needs. The marker bodies are made of premium aluminum that provide a superb haptic. Filled with the finest alcohol-based ultra black ink, they come in a tone aptly named „ultra ink“. This luscious, deep black ink is permanent and UV-resistant, but not clothing friendly so take care when using it while wearing your Sunday bests. All Montana EMPTY markers are perfect in combination with the Montana alcohol-based BOLD ultra ink!

THE BOLD MARKERS

8MM ROUND + 10MM CHISEL + 15MM STANDARD

The Montana BOLD marker range boasts „Made in Germany“ quality, while ticking all the other boxes. This must have tagging marker assortment is loaded with deep black ink that is a rich, permanent alcohol based ULTRA Black Ink. Tags will leave its mark for a long time to come. With added UV resistance properties! The refillable bodies are durable and beautifully designed in classic aluminum for use over the long term. Available in 8mm Round, 10mm Chisel and 15mm Standard, the tips are changeable and able to be used on nearly any surface, while delivering superior ink flow so you can stay on top, time and time again.

BOLD MARKER & REFILL RACK

HIGHEST QUALITY MARKERS MADE IN GERMANY

The new Montana BOLD marker range is the new home for all your tagging, calligraphy and street marking needs. This complete range of BOLD ultra black permanent marking tools is now even more eye catching with the new BOLD MARKER RACK. The BOLD MARKER RACK is the perfect racking system for all your commercial, in-store, counter display and point of sale needs. End users don't miss out either as these rack's are ideal for private, in studio or work space environments. Made of hard wearing, finished in a timeless satin black, each rack is 21cm long, 19.5cm high (24.5cm with header) and 11.7cm deep. Increase your range effortlessly by stacking your Montana BOLD MARKER RACK one on top of the other. Observe your customers trends or help to influence them. With flexible filling options, you can restock and refill your Montana BOLD MARKER RACK in any variation of 18 x large markers (8mm Round/10mm Chisel/15mm Standard), 10 x 3mm Chisel and 3 x 200ml ULTRA black refill ink. The finishing touch is a removable and discrete, metal header featuring the world renowned Montana TYPO LOGO symbol in a contemporary matt grey type, so you can help your customers connect the dots to all your Montana branded products.

Containing acid-free black pigment ink in an alcohol base, these prestigious markers are made in Japan which is one of the corner stones for pen and ink tradition and technology worldwide. Waterproof & photocopy safe the Montana Sketchline markers are certified with the AP-Mark seal of quality delivering pure black color. Complementing the ink's delivery is the durable and strong synthetic nib which is resistant to breaking or fringing.

The Montana Sketchliners are versatile for use on many surfaces. To open your mark making possibilities, try combining them with the Montana ACRYLIC markers (once dry) in the Montana Black books or Montana Marker paper pads. All sketch liners are available in single packs including the 1.2mm size which is not present in the sets.

MONTANA-CANS PROTECTION TOOLS

SAFETY WEAR

Regardless of what sort of paint an artist is using, it is important to think long term and consider your health. Masks are the ideal protection from inhaling paint or paint related vapours while the Montana glove assortment can keep your hands clean while handling paint and painting tools to prevent absorption of foreign entities into your skin. Stay safe and enjoy your art making long term. The Montana Winter Gloves are ideal protection for use while handling paint and lacquers in cold climate. They are an extremely comfortable mix of a nylon shell, a soft brush acrylic lining and a high grip exterior latex coating. Also the Montana Nitril gloves – a cost friendly alternative to latex able to keep your hands protected for indoor or outdoor use, water-resistant, ambidextrous and non-sterile.

THE MONTANA WINTER GLOVES

SAFETY & PROTECTION WEAR

Regardless of where you are, it's always winter somewhere. And for the aerosol die-hard, winter is not a dirty word. Minus temperatures are no reason to stay home and there are no hurdles that can't be jumped when it gets cold. The Montana Winter gloves can keep your hands warm and protected, while the Montana BLACK performs, functions and delivers in extremely cold conditions. Montana BLACK is the perfect tool

for working outside in very cold climates. Praised by artists all over the globe, the Montana BLACK is the "go-to" tool for all-weather reliability, even when snow or ice comes into play. The specially developed NC Formula in combination with the High Pressure valve system insures that you get the job done and have fun while you're doing it.

PROTECTION TOOLS

SAFETY WEAR

MONTANA WINTER GLOVES

The Montana Winter Gloves are ideal protection for use while handling paint and lacquers. They are an extremely comfortable mix of a nylon shell, a soft brush acrylic lining and a high grip exterior latex coating. These materials allow breathing for your hands to maintain optimum warmth for use between -5 and 8°C. The serrated fingertips offer exact touch and finger positioning. We recommend warm hands before putting the gloves on. Available in four different sizes: Small (grey lining), Medium (green lining), Large (blue lining) and Extra Large (red lining), comes as a pair. Keeps your hands warm and clean!

NEW

MONTANA CANS T-SHIRT BACKPRINT TAG BY SICOER

On the back of the successful release of the Montana BLACK Limited Edition artist series can by Polish graffiti artist SICOER, it wasn't a big step to take his unique hand styles and put them on a t-shirt. As is tradition, SICOER was invited to interpret the Montana Cans brand name in a way that reflects his approach to his art. The result is the Montana Cans tag t-shirt which boasts high-quality 100% organic cotton for comfort and style. The modern unisex cuts come in various sizes ranging from S to XXL making it a perfect fit regardless of your size or gender. The robust 180gm² material requires simple washing machine care.

MONTANA MULTI SCARF

PROMOTIONAL TEXTILES

MONTANA MULTI SCARFS

Cold, warm, dark, or light. Your everyday identity is the last thing you want people to remember when all you are trying to do is leave your artwork behind. The new Montana Cans MULTI SCARF featuring "YARD" photo design by Edward Nightingale (DE), and "Factory" illustration design by Snooby (IT), is here to help. These comfortable scarves are made from breathable 96% Polyester and 4% Spandex (Elastane) that stretches to the form required. You can cover your neck/throat (for wind protection), your head (from sun exposure or to hold in warmth), or your face, making your artwork the focus and not your identity. Machine washable at 40° makes care simple and the scarves hygienic for regular re-use.

MONTANA COTTON DONUT PRINT

The innovation of the color DONUT didn't just initiate the reduction of plastic use, packing material, and packing space for unnecessary lids, but it also revolutionized the look of spray paint and the ease and accuracy in which the color content inside the can could be identified. The perfect reason to commemorate this achievement with the Montana Cotton Bag range DONUT PRINT series. Coming soon in the colors BLK400-7320 Ghetto and BLK400-9150 Whiteout, this Cotton Bag series pays a small homage to a big milestone. The centrally located white print on the applicable colored 100% cotton bag is cut in the familiar 38 x 42cm sizing. As with the rest of the series, the bags are light weight yet allow sturdy transportation of your valuables.

MONTANA HELLO MY NAME STICKER PACKS

The traditional "Hello My Name Is" sticker is back with an old school twist. This time round we re-visit the classic sticker colors red and blue. Shrink wrapped in packs of 100 per color, the packs also still include the luscious 4mm permanent round marker with it's juicy ink. Each marker barrel is printed red or blue in connection to the corresponding sticker color chosen. A single Montana Hello my Name Stickers measures 12cm x 9cm.

MONTANA HELLO-GRAM STICKER - NON-EGGSHELL

The new Montana HELLO-GRAM stickers take sticker bombing to a new level. The 12cm x 9cm sticker base features the traditional Montana Cans „Hello My Name Is“ design and places it on a new holographic (non-eggshell) adhesive film. Sold in packs of 50, stand out from the crowd with a galactic touch on the new Montana HELLO-GRAM sticker.

MONTANA STICKER SET #2 SPRAYCATION

To celebrate the Spraycation way of life, we have created the new Montana Cans STICKER SET #2-SPRAYCATION. To celebrate the Spraycation way of life, we have created the new Montana Cans STICKER SET #2-SPRAYCATION. Like their patch equivalents, the SPRAYCATION stickers capture the spirit of the graffiti brotherhood. With a spotlight on some of the common elements of the Spraycation experience. The set contains 12 high-quality vinyl stickers in various sizes from 5-8cm from the SPRAYCATION patch design collection, and one MONTANA LOGO-TYPE HOLOGRAM (non-eggshell) sticker.
